

# Welcome to Eco Life with Forest in Tohoku

## Wood interaction & information plaza

When : January 27 (Sun) 10:00~17:00

Where : S-Pal Square (in front of MUJI),  
1st floor of Main Bldg., S-PAL Sendai

For Whom : Children & Adults

Organised by Tohoku University, Graduate School of Engineering,  
Department of Architecture and Building Science, Maeda Laboratory  
In Cooperation with S-Pal Sendai, Miyagi Pref. Forestry Promotion Div., Miyagi CLT Promotion Council,  
Toyoma Town Forestry Assoc., Miyagi Forestry Assoc. Federation, Japan CLT Assoc.,  
SCR (NPO), Seeihoku Plywood, Meiken Industry, Garbo Space Studio, etc.

### 【Audio-visual zone】

- **Timber in Lifestyle**  
By using wood, we use a natural material and create a healthy indoor climate. We prepared some panels and videos for you!
- **Learn about nature and forestry**  
You can talk with experts, see real trees and get to know how forestry works.
- **What is wood?**  
You can see and touch real wood and a lumber sample from Miyagi's forest.
- **Wooden Buildings and furniture**  
We exhibit furniture out of timber from Miyagi Prefecture.

### 【Tactile and Olfactory Zone】

- **Woodworking workshop**  
Make a wooden calendar and flute in the shape of a bird (no application required, entry fee 500~600円)
- **Let's play with wooden toys**  
You can play freely with wooden material. Assemble the timber parts without using nails or glue

Take part in a wood smell quiz and more!

### Tohoku University CLT model building

The CLT model building is a seminar room of Tohoku University, completed in 2017. It was constructed using CLT (Cross laminated timber) material by cooperation of industry, academia and government. You can come and visit this building, that won the 2018 Good Design Award and the Wood Design Award.
